MagHealy McMakin Application

MagHealy McMakin Programs

The Power of Interference

Using two parallel magnetic fields to create interference of two different concurrent frequencies is what we call the MagHealy McMakin Application, named after Carolyn McMakin DC.

The MagHealy McMakin programs use specific frequency pairs targeted towards harmonizing the Bioenergetic Field, creating a so-called Frequency Specific Magnetic Field (FSMF). The first frequency in each pair targets the type of imbalance, while the second frequency pinpoints the location of the imbalance in the Bioenergetic Field (e.g., the liver). Each of the 24 McMakin programs contains a complex sequence of such pairs.

The Expert behind the Application

Carolyn McMakin is a Doctor of Chiropractic, American educator, researcher and pioneer of interfering dual frequencies and one of MagHealy's developers.

Did You Know?

The Frequency Specific Microcurrent (FSM) method was developed by Carolyn McMakin in the USA in 1995 and first taught in 1997.

FSM uses two stimulation outputs in parallel, where frequency modulated microcurrent is transmitted to the body via electrodes. This also involves the use of frequency interference. The medium for FSM can be either microcurrent (via cable) or (in the case of MagHealy, which is cable-free) magnetic fields.

HealAdvisor Analyse Meridian Module

Unlocking Your Body's Energy Flow

The ancient teachings of the meridians and acupuncture date back to over 2,500 years ago. It is one of the oldest practices of traditional Chinese knowledge. Based on its centuries-old concepts, there is a belief that the body has twelve main energy pathways called meridians. Each meridian is connected to a specific organ or functional circuit in the body.

Along these energy pathways, acupuncture points are strung like beads on a string. Each of them has a specific connection to a certain organ.

An Advanced Approach to World-Leading Information Field Analysis

Healy World's cutting-edge technology takes Information Field analysis to a whole new level. The MagHealy device uses not one but two resonance sensors as guides to detect energy path blockages.

Step into a world of innovation with the HealAdvisor Analyse Meridian Module for MagHealy – a revolutionary approach and a game changer.

Restore Natural Balance of Your Meridians With the MagHealy Meridian Application

Traditional meridians teach us about twelve essential energy pathways, vital for our balance when unobstructed.

Disruptions and blockages in the intricate energy flow can lead to discomfort. It is at these specific points along the meridians where the magic happens. Stimulating these points can profoundly influence the flow of Qi, bringing us closer to a state of balance and wellbeing.

12 Meridians for 12 Holistic Solutions

Unlock your vitality with a dynamic toolset of 12 QAF programs for MagHealy, meticulously designed for each of the twelve main meridians. Restore their balance and empower your life with renewed vigor and vitality.

Organ Clock: Timing Your Wellness

Each meridian has a specific active time period, known as the “organ clock”. Echoes of this concept are reflected in modern chronomedicine, where the optimal times for taking certain medications are explored.

Each meridian seamlessly intertwines with an organ or body system and is aligned with one of the five elements: Wood, Fire, Earth, Metal and Water.

Frequencies for Your Life

¹ "Quantum Analyzed Frequencies" ("QAF") is a proprietary technology of Healy World. It uses the data from a physical noise generator to assign a priority to frequencies that professional user experience indicates have the highest relevance for the user. The duration, frequencies, intensity, frequency, naming, and the descriptions of the Quantum Analyzed Frequency (QAF) programs are based on the practical experience experts and our understanding of the interaction of frequency modulated magnetic fields with the Bioenergetic Field. They have not been confirmed by independent studies. The MagHealy Quantum Analyzed Frequency (QAF) programs are designed to support wellbeing through harmonization of the Bioenergetic Field. We have conducted unblinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called chi (or qi) and prana. This has not been confirmed by independent studies.
